Interests

- Reading
- Playing Video Games
- Playing Chess
- Puzzles

Proactive game developer with 3+ years of game programming experience and one shipped title. I am looking to develop my skillset further and get to know and help others in a similar field. and where I can utilize my previous experience to assist other students in game design and development.

Education and Qualifications

- Bachelor of Science (B.S.) - Game Development** Jul 2022 - May 2025
Georgia State University, Atlanta, Georgia
- Bachelor of Science (B.S.) - Computer Science** Aug 2025 - May 2026
Georgia State University, Atlanta, Georgia

Work experience

- Game Programming Intern** Jun 2024 - Aug 2024
Universal Pheonix Group LLC, Atlanta, Georgia
- Developed a dynamic fluid gameplay experience alongside a small creative team
 - Worked with UI artists to implement functioning UI/UX into one of the company's current projects
 - Did market research and analysis on the user interface and graphics design of successful games and dissected them to see how they did
 - Developed different aspects of the user interface and user experience according to client requirements and made sure it was intuitive and not intrusive

- Technical Lead** May 2025 - Dec 2025
Kajal Magal Studios, Atlanta, Georgia
- Handling lighting, VFX, post processing, and rendering in Unreal Engine 5 to make sure scenes look consistent and match the preferred style.
 - Creating models in Autodesk Maya as necessary to populate scenes.
 - Managing source control programs.
